(If you haven't received an email from XXXXXXXXXXXX Car Share within 24 hours, please get in touch with the Car Share Administrator e.g. at the telephone number below.)

For security reasons you will receive a confirmation email

Just click on the link to confirm your membership

The system will tell you how much CO₂ you would save if you shared the journeys you have registered with just one other person even if it is for only one day a week!

What is car sharing?

It is when two or more people decide to travel to work together in one car rather than separately. It does not exclude people who would normally travel as a passenger on other transport, but is really aimed at getting vehicles off the roads by increasing the number of people in each car.

How does car sharing work?

Once you have completed the registration form the details will be entered into the database. The Car Share system will then produce a list of suitable sharers; people to pick up on the way or who live near you and who meet the criteria you have requested. From this list it is then up to *you* to contact each other and formulate a car share agreement that is convenient to you all.

You do not have to over commit yourself at this stage. One option is to set a trial period and a date to review the feelings of all parties. This will enable you to stop sharing at this point if the arrangement doesn't suit any or some of the parties involved.

Why should I consider car sharing?
